Cindy and Annette,

Attached is final version of the "No Surprises" spreadsheet, as of this evening (7/26, 5:35pm CT). I was able to gather information from all Divisions. I am attaching the Excel spreadsheet and the pdf file of the Pivot Table worksheet. If acceptable, I would suggest forwarding the pdf file....not the Excel spreadsheet. If there are changes you see that need to be made, you can give me a call at home on Friday at either home number (b)(6) privacy or the cellphones, (b)(6) privacy -personal or (580)483-6410---work.

To make the changes yourself in the "interest" areas, simply change the "x's" in Columns G through K for the appropriate products, then "refresh" the Pivot Table (i.e., with the mouse over the Pivot Table, click the mouse's Right-Button, and select to "Refresh" from the menu). To regenerate the pdf file, select to print to a pdf file. The layout is already setup such that the print format will adjust to changes you may make in the data.

I have done as much is possible with attempting to QA the information. However, there is still more work that needs to now be done to cross-walk this spreadsheet with the product status spreadsheet exercise currently due by tomorrow.

Don't hesitate to call, if you have questions.  
Joe
